PROJECTS

Pakistani Panorama (FYP) | [Live Link](#)

- Developed a MERN-stack web application to centralize travel data and tourist locations across Pakistan
- Incorporated a **Nearby** feature to help users find essential services such as hospitals and police stations
- Leveraged **Google Places API** with **Redis** caching to reduce API requests and improve application performance
- Secured user authentication using **JWT** tokens stored in **HTTP-only** cookies for enhanced security
- Enabled **Google OAuth 2.0** login integration for faster and more secure user authentication
- Built a Travel Assistant **Chatbot** to guide users through trip planning and destination discovery

Secure Share | [Live Link](#)

- Built a secure password-sharing app with ReactJS and Tailwind CSS for safe password storage and sharing
- Merged the **PwPush API** to create expiring **HTTPS** links for time-limited password access
- Generated strong, random passwords with a built-in password generator for enhanced security
- Crafted a responsive UI in Tailwind CSS to ensure smooth use across desktop and mobile devices

Yum Recipes | [Live Link](#)

- Assembled a dynamic ReactJS web app to browse and search diverse food recipes
- Styled components responsively with Tailwind CSS to ensure consistent layouts on all devices
- Blended **RapidAPI** integration to fetch and display up-to-date recipe data from multiple sources
- Implemented pagination controls to improve navigation and streamline the recipe-browsing experience
